

WAC 308-12-023 How do I become a licensed architect? You need to fulfill three general requirements before getting your license: Education, examination, and experience. If you are already licensed in another NCARB-recognized jurisdiction, you will need to verify you have met these requirements before being licensed in Washington. The board may request additional information or an oral interview, if necessary. You must also satisfactorily complete a review of laws related to the practice of architecture as determined by the board.
